

BUD-01 User's Manual

Introduction:

It can be connected to Bluetooth compatible communication devices wirelessly. It is not necessary to keep both devices in line –of –sight but with a maximum range of 10 meters. But the Bluetooth connection may be interfered by obstacles such as walls or radiation from other 2.4GHz wireless devices.

Product Outlook

Usage Introduction:

I、 Pair up with Bluetooth headset:

Please pair it up with your Bluetooth stereo headset before using:

1. Plug BUD-01 into USB port of the PC. It enters pairing mode automatically with the default pin “0000”. And the LED flashes continuously.
2. Set your headset to pairing mode and connect it to BUD-01. Please refer to <User's Manual> of the Bluetooth stereo headset for details.
3. The LED of BUD-01 flashes in red every 0.6 second after pairing is successfully completed.

II、 Disconnect the headset from BUD-01:

Please take one of the methods below to disconnect the headset from BUD-01 (for example, when preparing to connect the headset with other Bluetooth device):

1. Unplug BUD-01.
2. Power off the Bluetooth headset.
3. Move the headset more than 10 meters away from the PC.

III、 Reconnect the paired headset with BUD-01:

Plug BUD-01 into PC, then power on the Bluetooth headset. At this time, BUD-01 will connect to the last paired device automatically. If failed, BUD-01 enters pairing mode then. In that case, it needs to re-pair up for using.

IV、 Usage:

The system will switch the sound card of PC to BUD-01 automatically when the user plugs it into PC, no manual setting is necessary. After successfully pairing up, the user can operate such functions of PC media player as pause, play, volume+/-, backward, forward, etc. (Please refer to <User's Manual> of the Bluetooth stereo headset for details.)
